◆ INVITATION

Dear colleagues & friends

As the blue veil of COVID-19 seems to be slowly receding, the Korean Hernia Society is to hold the 16th Congress of the KHS & 1st International Symposium 2022 in Seoul on 8 and 9 July 2022. Although the event will vary depending on the change of the pandemic situation, it will virtually be held both online and offline.

This symposium is historic as the first international symposium held by the Korean Hernia Society. Communication through APHS and EPHS were the main venues for networking in the past. This year as a starting point, we are committed to moving one step closer to the center of international communication. The scientific program that includes both the basics and the latest trends on hernia can be a terrific chance for academic exchange between the participants. Indeed it is also an excellent opportunity to build friendships.

Seoul is one of the most beautiful cities in the world. Feel the vibe of Seoul and participate in wonderful academic exchanges.

We hope you are in good health and will see you in Seoul in the summer of 2022.

President of
The Korean Hernia Society
Gil Ho Kang
M.D., Ph.D

Chairman,
Organizing committee
Hyung Jin Kim
M.D., Ph.D

Chairman,
Scientific committee
Seong-Ho Kong
M.D., Ph.D

◆ IMPORTANT DATES

- Abstract Submission Deadline : June 17, 2022
- Early-bird Deadline : June 10, 2022
- Pre-Registration Deadline : July 01, 2022
- Registration fee : **Free for overseas participants**

	Early-bird	Pre-Registration	On-site Registration
Professor, Doctor (KHS member)	KRW 100,000	KRW 120,000	KRW 150,000
Professor, Doctor (nonmember)	KRW 150,000	KRW 170,000	KRW 200,000
Trainee / Resident / Others	KRW 30,000	KRW 40,000	KRW 50,000

◆ OFFICIAL LANGUAGE

English

◆ PROGRAM

DAY 1	
08:50-09:00	Opening ceremony
Symposium 1. To the basic: inguinal hernia surgery	
Moderator Tae Seok Lee (Eulji Univ.), Won Yong Choi (Cheju Halla General Hospital)	
09:00-09:20	Standardization of procedure in TEP Ji Hun Kim (The Catholic Univ.)
09:20-09:40	Usefulness of laparoscopic TAPP Sang Jin Kim (Hansarang Hospital)
09:40-10:00	Inguinal hernia repair for highly morbid patients Chung Sik Gong (Ulsan Univ.)
10:00-10:20	Prevention of complications in laparoscopic inguinal hernia repair Rajesh Khullar (Max Healthcare Institute, India)
10:20-10:40	Discussion
10:40-11:00	Coffee Break
Symposium 2. Where is our ventral hernia surgery going?	
Moderator Hyung Jin Kim (The Catholic Univ.), Hoon Ryu (Wonju Yonsei Univ.)	
11:00-11:20	History of retromuscular repair for ventral hernia In Kyu Park (Ulsan Univ.)
11:20-11:40	Laparoscopic ventral hernia repair Alfred Allen E. Buenafe (Cardinal Santos Medical Center, Philippines)
11:40-12:00	Chinese expert consensus on adult ventral abdominal wall defect repair and reconstruction Yan Gu (Fudan Univ., China)
12:00-12:20	Laparoscopic parastomal hernia repair: yesterday, today, and tomorrow Steven Yao (Fudan Univ., China)
12:20-12:40	Discussion
Luncheon symposium 1	
Moderator Seong Ho Kong (Seoul National Univ.)	
12:40-13:40	Easy and accurate ventral or umbilical hernia repair using ventralight ST with echo PS and ventralax ST in laparoscopic surgery Sung Il Choi (Kyung Hee Univ.)
Presidential lecture	
Moderator Sung Heun Kim (Dong-A Univ.)	
13:40-14:10	Hernia surgery in Korea: limitation, strategy, and changes in concept Gil Ho Kang (Hansarang Hospital)
Symposium 3. Anatomy: from basic to clinic	
Moderator Gap Tae Kim (Presbyterian Medical Center), Myoung Won Son (Soonchunhyang Univ.)	
14:10-14:30	Collagen and elastin content of abdominal wall fascia in inguinal hernia patients Arinzechukwu Mosanya (Evercare Hospital Lekki, Nigeria)
14:30-14:50	The role of ultrasound in the diagnosis of hernia Jung Sik Kim (Dr.Kim's Radiological Clinic)
14:50-15:10	Importance of abdominal wall layer during posterior approach Suthep Udomsawaengsup (Chulalongkorn Univ., Thailand)
15:10-15:30	Anatomical concept is the key map during anterior approach Dong Gue Shin (Seoul Red Cross Hospital)
15:30-15:50	Discussion
15:50-16:10	Coffee Break
Symposium 4. Challenges: Robotic hernia repair	
Moderator Hyuk Hur (Yonsei Univ.), Kyung Won Seo (Kosin Univ.)	
16:10-16:30	Robotic hernia repair : techniques and advantages Jaideep Raj Rao (Arden JR Surgery, Singapore)
16:30-16:50	TAPP by da Vinci SP Jun Woo Bong (Korea Univ.)
16:50-17:10	TEP by da Vinci Xi Yun Young Park (Kyung Hee Univ.)
17:10-17:30	Discussion
DAY 2	
09:00-10:40	Oral/Video presentation Moderator Han Hong Lee (The Catholic Univ.), Ho-Kyun Lee (Chonnam National Univ.)
10:20-10:40	Coffee Break
Symposium 5. Master class of open inguinal hernia repair	
Moderator Youn-Baik Choi (Ulsan Univ.) Gil Ho Kang (Hansarang Hospital)	
10:40-11:00	Patient's own tissue instead of artificial mesh: Desarda technique Mohan Phulchand Desarda (Poona Hospital & Research Centre, India)
11:00-11:20	Posterior relaxing tissue repair: techniques and outcomes Kyu Joo Park (Seoul National Univ.)
11:20-11:40	Lichtenshtein repair, to the perfection Hiroshi Hirukawa (Tachikawa General Hospital, Japan)
11:40-12:00	Technical tips and benefit of prolene hernia system (PHS) Hae Chang Jo (Daegu Fatima Hospital)
12:00-12:20	Discussion
Special lecture	
Moderator Ji Young Sul (Chungnam National Univ.)	
12:20-12:50	Lateral ventral hernia : a challenge and a solution Davide Lomanto (Singapore National Univ., Singapore)
Luncheon symposium 2	
Moderator Woo Jeong Lee (Yonsei Univ.)	
12:50-13:50	TAPP using articulating instruments Ji Hoon Kim (The Catholic Univ.)
12:50-13:50	Laparoscopic totally extra-peritoneal(TEP) herniorrhaphy using articulated monopolar dissector Chung Sik Gong (Ulsan Univ.)
Symposium 6. Education and training	
Moderator Sung Il Choi (Kyung Hee Univ.), Gwan-Chul Lee (Hansol Hospital)	
13:50-14:10	How to educate trainees? Jae Im Lee (The Catholic Univ.)
14:10-14:30	How to educate patients? Kidoong Kim (Mark 1 Laparoscopic Surgery Clinic)
14:30-14:50	Training of inguinal hernia surgery in Japan Norihiro Wada (Shonan Keiiku Hospital, Japan)
14:50-15:10	20 years experience of laparoscopic TEP Chin-Hung Tsai (Taichung Hospital, Ministry of Health and Welfare, Taiwan)
15:10-15:30	Discussion
15:30-15:50	Coffee Break
Symposium 7. Prevention of postoperative complications	
Moderator Ho-Geun Youn (VHS Medical Center) Hyung Soon Lee (National Health Insurance Service Ilsan Hospital)	
15:50-16:10	Pain after inguinal hernia surgery: cause, prevention, and treatment Gyung Mo Son (Pusan National Univ.)
16:10-16:30	Intervention of chronic groin pain Shi Joon Yang (Yonsei Univ.)
16:30-16:50	Prevention of seroma formation after minimally invasive hernioplasty: the current evidences Joe King Man Fan (Hong Kong Univ., China)
16:50-17:10	Difficult situations in laparoscopic hernia repair Jun Beom Park (Chungnam National Univ.)
17:10-17:30	Discussion
17:30-	Closing ceremony
